

Giant Slalom & Parallel Giant Slalom Trophies

Decorated with 29.998 crystals from Swarovski®

Artist Daniele Basso

"Trophies, with their significance of passion, sport and beauty, represent the performances of the champions in the imposing fascination of Badia Dolomites. They celebrate the magic of snow and sport in Swarovski® crystals that lightly come down until turning into the GRAN RISA ski slope".

Since 1895, Swarovski has been supplying crystals of unparalleled quality, a symbol of high craftsmanship and creativity.

They are now essential ingredients in the worlds of fashion, accessories, jewelry and interior decoration, not to mention modern design and art.
