

# #5\_beyond hope

Art project at the time of Covid-19

This painful global experience must leave us something.

So I thought of sharing short reflections on my work useful for the project of a better future in which to live. Because this challenge is ours. History tells us. Let's live it in the awareness of being the protagonists of the whole of humanity.

## Re Leone

2019 - 150x93, h 120 cm - stainless steel mirror finished by hands  
Daniele Basso

*Re Leone is a wish for courage, pride and dignity, celebrating those who believe in their dreams and have the courage to pursue them. Beyond pride, unnecessarily tied to the opinion of others about us, we need to act with dignity and respect, to give meaning to our existence.*

*Because we are what we choose and what we do.  
We are protagonists of society and architects of our destiny.*
