

Frattali

2021

diameter 150xh8cm

Stainless steel mirror finished by hands and rusted iron.

Daniele Basso

Reality appears more and more in its fragmentary and multiple essence: we are the glue of our world; we who compose the puzzle of our values, our habits and actions; we write our personal history with facts. Frattali reminds us of the multiplicity that surrounds us, that we must keep in mind to achieve our goals. The variety that amazes us and makes life wonderful, in which we choose the roots of our identity.
